COMMENTS

One of the main differences between Quest and a traditional Benetti Classic is that she has very large lockers in front of the wheelhouse. One of these lockers contains a rescue boat. This rescue boat can therefore be used as a second tender. The main deck layout has been altered to include an Owner's study.

Other interesting features are:

- SPA on sundeck
- Integral garage
- NVTI 5100 thermal and night vision camera
- Xerox Phaser 7400' multi function photo copier, colour laser printer
- 5 A4 size safes with electronic locks
- 2 x Special fully automated captain's chairs in wheelhouse
